General Interests: Aluminum Die Castings, Ductile/Grey Iron Castings, Gear Box Assemblies. 2. Special item that we are looking for: Aluminum die castings using some type of expendable (soluble or other) core to cast complex internal features in a part. Expendable core material can be sea salt or other. "Fusible Core" technology is also acceptable. The best factory for this application will also be able to provide secondary CNC machining operations on the die-castings. HS-Code: 8467.92.0090 |
